

Still storing bulky processed checks and deposit slips? **Say hello to free Check Imaging.**

**Switch from Check Return to Check Imaging –
it's a smarter way to manage your check records.**

Why Check Imaging for your business?

Check Imaging allows you to keep more efficient check records through condensed and easily organized records. You no longer need to store bulky checks and deposit slips. Plus, if you ever have a need, you can request up to 3 free copies of check images which are digitally stored for 7 years.

How do I switch to Check Imaging?

It's simple. Just contact your branch of account and ask them to switch your checking account Check Return feature to Check Imaging.

See back for a look at imaged checks.

How does Check Imaging work?

A free option available with all of our business checking accounts, Check Imaging provides scanned images of your checks and deposit slips with your monthly paper statements – instead of physical checks. Images are clearly labeled with the Reference Number, Amount and Check Number and sorted in numerical order for easy check balancing.

Plus, if you have CB&T Direct Business Internet Banking, online check images and E-statements are provided at no additional charge.

Contact your branch of account to switch to Check Imaging or to sign up for Direct Business Internet Banking today.
